DEBORAH DORE

deborah.dore@outlook.com |

PhD candidate in NLP. Working on grounding language models in structured argumentative knowledge, from domain-adapted pre-training to argument-guided retrieval, so their reasoning becomes more reliable. Available for a 3-6 months internship starting May–July 2027.

EDUCATION

PhD - Artificial Intelligence **Nov 2024 – Present**
Université Côte d'Azur, CNRS, INRIA, I3S Nice, France
Research Project: Argument Mining in Political Debates
Advisors: S. Villata, E. Cabrio
Keywords: NLP | Argument Mining | Political Debates
Research Scholarship: EFELIA scholarship for international mobility

Master - Computer Science **Sep 2021 – May 2024**
Sapienza Università di Roma. Final Evaluation: 110/110 cum laude, GPA: 4.0 Rome, Italy
Thesis Project: Argument Representation using Knowledge Graphs
Erasmus+ Scholarship: 6-month exchange at Universidade do Porto, Portugal
Research Scholarship: 6-month research visit at CNRS, France

Bachelor - Computer Science **Sep 2017 – Apr 2021**
Università degli Studi di Torino. Final Evaluation: 110/110, GPA: 3.7 Turin, Italy
Thesis Project: Full-stack access control application with Spring Boot and ReactJS
Erasmus+ Scholarship: 6-month exchange at Università Tecnica din Cluj-Napoca, Romania

D. Dore, E. Cabrio, S. Villata. *RooseBERT: A New Deal For Political Language Modelling.* **WI-IAT 2026**

P. Goffredo, **D. Dore**, E. Cabrio, S. Villata. *DISPUTool 3.0: Fallacy Detection and Repairing in Argumentative Political Debates.* **ACL 2025**

D. Dore, Stefano Faralli, S. Villata. *Leveraging Graph Structural Knowledge to Improve Argument Relation Prediction in Political Debates.* **ArgMining@ACL 2025**

SELECTED PROJECTS

FallacyRAG FallacyRAG
Retrieval-augmented fallacy detection and classification in political debates that guides the retrieval strategy with argumentative relations (under review at EACL 2027).

RooseBERT RooseBERT
Domain-adapted language model for political debates, pretrained on 11GB of debates with multi-GPU training on the Jean Zay HPC cluster. Released four model variants, a sentence encoder, and the RooseDebates corpus on Hugging Face, with 300+ monthly downloads (WI-IAT 2026).

DispuTOOL DispuTOOL
Transforming my PhD project into a web app to ground my research contributions in real-world usability.

EXPERIENCE

Teaching Assistant **Nov 2024 – Present**
Université Côte d'Azur, Centrale Méditerranée Sophia Antipolis, France

- Designed and delivered university courses in NLP and Data Analysis for 100+ students.
- Built hands-on labs and assessments covering NLP pipelines, NoSQL databases, and data visualization.

Research Intern **Sep 2023 – Feb 2024**
CNRS, WIMMICS Team Sophia Antipolis, France

- Fine-tuned transformer-based models for argument classification on political debate corpora, pushing state-of-the-art performance by +4% F1.
- Built and evaluated NLP pipelines for relation extraction using Knowledge Graphs and LLMs.

Software Developer **Sep 2020 – Aug 2021**
Certimeter Group (Lutech), client: Blue Reply Turin, Italy

- Designed and deployed 50+ production microservices in Spring Boot and Docker, migrating legacy monolithic systems as part of a large-scale enterprise modernization initiative.
- Built real-time data ingestion pipelines using Apache Kafka at scale.
- Developed full-stack applications with Spring Boot and ReactJS (internship, Sep 2020 – Jan 2021).

SERVICE & OUTREACH

Reviewer: ACL, AAAI, EACL, ESWC, ISWC, IJCAI

Seminar Organizer **Aug 2025 – Sep 2026**
3IA Côte d'Azur - Interdisciplinary Institute for Artificial Intelligence Nice, France

Volunteer **Jul 2025 – Aug 2025**
Association for Computational Linguistics (ACL 2025) Vienna, Austria

Student Representative **Sep 2020 – Aug 2021**
Fondazione Collegio Universitario Einaudi Turin, Italy

SKILLS

Languages & Programming: Python, Java, JavaScript, SQL, R, C
ML & NLP: PyTorch, TensorFlow, HuggingFace Transformers, LangChain
Data & Engineering: PySpark, Apache Kafka, Spring Boot, ReactJS
DevOps & Cloud: Docker, AWS, Git
HPC: SLURM, multi-GPU training, Jean Zay
Databases: SQL, MongoDB, ChromaDB
Languages: Italian (native), English (C1 — IELTS 7.5), French (B2)
